# ESC Council for Cardiology Practice

## Background

---

The Council for Cardiology Practice was created in 2000 to gather cardiologists working in private practice. The qualifying aspects of the cardiologists in practice are:

1. profession mainly carried out in out-of-hospital offices
2. interest in 'General Cardiology'.

## Structure

---

- Over 1700 members worldwide
- Over 20 volunteers in the Council Board
- ESC Councils' Internal Governance Procedures

## Our Mission

---

The mission of the Council for Cardiology Practice is to:  
*Improve the standard of care in the clinical cardiology practice of office-based general cardiologists.*

As general cardiologists, we should not know 'everything about something', but know 'something about everything'.

## What we do

---

The Council is active in a number of areas, including :

- the development of the ESC Congress special track:  
*General Cardiology for Physicians, Technicians & General Practitioners*
- producing the e-Journal of Cardiology Practice.
- writing or collaborating on position papers and consensus statements.
- involvement in the reviewing of ESC Guidelines.
- producing educational content in general cardiology, such as webinars.
- conducting surveys within the ESC to understand today's management of cardiovascular diseases.
- producing a regular newsletter for members and providing a social media platform for exchange of news.

## Sign up for Council for Cardiology Practice Membership

---

The Council for Cardiology Practice welcomes office based general cardiologists.

Top reasons to join the Council for Cardiology Practice :

- To preserve "the high-value traditional general cardiology" using a stethoscope and basal ECG, face to face with your patient and with her/his history.
- To know "something about anything" in cardiology, from mild hypertension to complex arrhythmias.
- To share your clinical issues with colleagues and find easy solutions for your everyday practice.

- To join the community of Clinical General Cardiologists working in an out-of-hospital setting who share your common daily professional problems.
