**Drug-Eluting Stent  
Misadventures**

Sunday, March 12, 2006, 2:00 p.m.–3:00 p.m.  
*Georgia World Congress Center, Room C201*

Chair: \*Paul S. Teirstein, La Jolla, CA

Case Presenter: \*Elizabeth M. Holper,  
Chicago, IL

Panelists: Daniel H. Berrocal, Buenos Aires,  
Argentina  
\*James P. Zidar, Cary, NC

*Objectives:* At the conclusion of this session, participants will be able to do one or more of the following: 1) state new approaches to the ongoing management of cardiovascular states or conditions; 2) select ideas to implement in their practice; and/or 3) relate research outcomes to the practice of cardiology.

day real-world practice; and 4) discuss the pros and cons of thrombin inhibitors and clopidogrel as foundation therapy for percutaneous coronary intervention.

**8:00 – Clopidogrel: Loading Doses, Duration of Therapy**—Germano DiSciascio, Rome, Italy

**8:10 – Novel Oral Antiplatelet Therapies**—\*Elliott M. Antman, Boston, MA

**8:20 – Glycoprotein IIb/IIIa and Acute Coronary Syndrome: Has It Been Replaced?**—\*Eric D. Peterson, Durham, NC

**8:30 – Glycoprotein IIb/IIIa Inhibitors and the Real World: Outcomes and Economics**—\*David J. Cohen, Boston, MA

**8:40 – Antiplatelet Resistance: Is It Real?**—Paul A. Gurbel, Baltimore, MD

**8:50 – Clopidogrel and Surgical Bleeding**—TBD

**Adjunctive Pharmacologic Therapy for Percutaneous Coronary Intervention: Thrombip Inhibitors and Plavix Are Enough**

**9:00 – Opening Arguments/Rebuttal, Protagonist**—\*Frederick Feit, New York, NY

**9:25 – Opening Arguments/Rebuttal, Antagonist**—\*James E. Tcheng, Durham, NC

**CORE 2706 Percutaneous Coronary Intervention Guidelines** 

Tuesday, March 14, 2006, 8:00 a.m.–10:00 a.m.  
Georgia World Congress Center, Room C208

Co-Chairs: \*George D. Dangas, New York, NY  
\*Barry F. Uretsky, Galveston, TX

*Objectives:* At the conclusion of this session, attendees will be able to: 1) understand percutaneous coronary intervention guidelines for various clinical settings in patients with myocardial infarction; 2) understand the

advantages and limitations of percutaneous coronary intervention without surgical backup; and 3) outline the post-percutaneous coronary intervention clinical care.

**8:00 – European Percutaneous Coronary Intervention Guidelines**—Sigmund A. Silber, Munich, Germany

**8:15 – Primary Percutaneous Coronary Intervention for Segment Elevation Myocardial Infarction**—\*Sidney C. Smith, Jr., Chapel Hill, NC

**8:30 – Invasive Management of Non ST Segment Elevation Myocardial Infarction**—\*Adnan Kastrati, Munich, Germany

**8:45 – Routine Percutaneous Coronary Intervention After Acute Myocardial Infarction**—Eric R. Bates, Ann Arbor, MI

**9:00 – Elective Percutaneous Coronary Intervention Without On-Site Surgery**—Thomas P. Wharton, Jr., Exeter, NH

**9:15 – Long-Term Management of Patient After Percutaneous Coronary Intervention**—Donald E. Cutlip, Boston, MA

**9:30 – Class II Recommendations: The Gray Zones**—Alan C. Yeung, Palo Alto, CA

**9:45 – Questions and Answers**

**CORE 2707 Complex Coronary Intervention: State of the Art** 

Tuesday, March 14, 2006, 8:00 a.m.–10:00 a.m.  
Georgia World Congress Center, Room C206

Co-Chairs: Steven R. Bailey, San Antonio, TX  
\*Harry R. Phillips, Durham, NC

*Objectives:* At the conclusion of this session, attendees will be able to: 1) understand when and how to apply new devices and techniques for the interventional management of complex lesions; 2) describe the roles of medical, intravascular and surgical therapies for difficult coronary revascularizations; and 3) review how to optimize acute and long-term outcomes in patients with complex coronary lesions.
