LERADS

Dear European Colleague,
Dear Friend,

The Council for Cardiology Practice (CCP) of the European Society of Cardiology was set up in 2000 to represent private-practicing cardiologists within the ESC. The annual ESC Congress is a time for us to meet and learn.

We are pleased to invite you to our second European Lunch Debate, during which leading experts from France, Germany, Spain, Italy and Belgium will give 5-minute presentations to advise you on [what you should retain from the ESC Congress 2006](#) and which sessions you should not miss.

You may already receive the [e-journal of Cardiology Practice](#), an electronic journal sent to you weekly with a three-line message brought to you by the leaders of the ESC Working Groups. The experts at the lunch meeting will present you information in a similar manner as in the e-journal, always bearing in mind [the interests of the private-practicing cardiologists](#).

With [all main areas covered](#), you will have a concise, [straight to the point overview of the Congress](#).

The Lunch Debate will take place as follows :

Solvasa Hôtel - C/Ciencias 98-100
Esq. Miguel Hernandez - Barcelona
Monday Sept. 4th

Looking forward to seeing you,

Dr Frank-Sonntag
Chairman of the ECCP
