

The ACC-i2 Program Committee is pleased to invite you to participate in the following session at the American College of Cardiology's Innovation in Intervention: i2 Summit 2009 in partnership with the Cardiovascular Research Foundation, March 28-31, 2009, in Orlando, Florida, USA.

Name: Sigmund Silber M.D., Ph.D

Session Role: New Generation Closure Devices: An Update

Session Number: 2613

Session Title: i2.Vascular Access and Closure

Session Type: i2.Modular

Session Time: 3/29/2009 10:30:00 AM - 3/29/2009 12:00:00 PM

Presentations:

Sunday, March 29 10:30AM - 12:00PM.

i2.09 Chair

Martial Hamon
Caen, France

Sunday, March 29 10:30AM - 12:00PM.

i2.09 Chair

Robert J. Applegate
Winston-Salem, NC

Sunday, March 29 10:30AM - 10:42AM.

Appropriate Femoral and Radial Access

J. Tift Mann, III
Raleigh, NC

Sunday, March 29 10:42AM - 10:54AM.

New Generation Closure Devices: An Update

Sigmund Silber
Munich, Bavaria, Germany

Sunday, March 29 10:54AM - 11:06AM.

Managing Femoral Access Site Complications: The Role For Endovascular Rescue

Stephen R. Ramee
New Orleans, LA

Sunday, March 29 11:06AM - 11:18AM.

Transradial Access: Advanced Techniques and Complications

Gerald Barbeau
Sainte Foy, QC, Canada

Sunday, March 29 11:18AM - 11:30AM.

Transradial Interventions: Tailoring Guide Catheter Usage

Ferdinand Kiemeneij
Amsterdam, Netherlands

Sunday, March 29 11:30AM - 11:40AM.

Abstract Presentation

non role Non Role
?, MD

Sunday, March 29 11:40AM - 12:00PM.

i2.09 Panelist

J. Tift Mann, III
Raleigh, NC

Sunday, March 29 11:40AM - 12:00PM.

i2.09 Panelist

Sigmund Silber
Munich, Bavaria, Germany

Sunday, March 29 11:40AM - 12:00PM.

i2.09 Panelist

Stephen R. Ramee
New Orleans, LA

Sunday, March 29 11:40AM - 12:00PM.

i2.09 Panelist

Gerald Barbeau
Sainte Foy, QC, Canada

Sunday, March 29 11:40AM - 12:00PM.

i2.09 Panelist

Ferdinand Kiemeneij
Amsterdam, Netherlands

The session activity we have asked you to participate in is based on needs assessment and learning gap data derived from a number of ACC and environmental sources. (For further educational goal, needs, content and mission statement information, click here:

<http://i2summit09.acc.org/education/Pages/default.aspx>.) We have planned the activity so that one or more of the following goals will result.

1. KNOWLEDGE — to disseminate knowledge of interventional concepts and technologies to optimize cardiovascular care and improve of cardiovascular patient outcomes.

Educational strategies for attaining this goal within specific topic categories* are:

- o Offer a core curriculum for interventional cardiovascular education in treating patients with coronary, carotid/peripheral vascular and structural heart disease
- o Provide a forum for analyzing and critiquing new approaches to non-surgical management of patients with cardiovascular disease
- o Present basic and clinical research findings, independent of commercial interests, to increase the evidence base related to the care of patients with cardiovascular disease
- o Create opportunities for knowledge exchange between interventionalists and general cardiologists as well as cross-discipline areas of cardiology (e.g., cardiovascular surgeons)

2. COMPETENCE — to foster the translation of evidence-based interventional concepts and techniques into daily clinical practice.

Educational strategies for attaining this goal within specific topic categories* are:

- o Offer education towards satisfying requirements for maintenance of certification (MOC) in interventional cardiovascular medicine
- o Provide individualized training on clinical diagnostics and procedures, presented in hands-on formats
- o Promote professional exchanges between and within groups of interventional cardiovascular care providers with similar clinical, geographic and/or educational interests
- o Present best practices of interventional cardiovascular specialists and related health care professionals working in multidisciplinary teams
- o Create a forum for global collaboration and cooperation on issues in interventional cardiovascular medicine to improve professional practices worldwide

You will be asked to submit a discreet learning objective that relates to your talk in subsequent steps.

I understand that for i2 Summit Structured Session faculty in Orlando, FL, USA, the Full-Access registration fee is waived (i.e., you will have complimentary access to both the i2 Summit and ACC.09 education sessions), and that the College does not pay an honorarium, nor reimburse for hotel, travel or per diem expenses. I agree with these terms and the presentation will be given as indicated.
