

Thursday 21st May

17:00-18:30

Symposium

What matters more in percutaneous coronary intervention: the type of drug-eluting stent... or optimising acute procedural outcome?

With an unrestricted educational grant from VOLCANO Corp.

Chairperson: M. Rothman

Objective:

▶ To outline how IVUS, IVUS-VH™ and fractional flow reserve can optimise acute procedural outcomes in acute coronary syndrome as well as elective patient populations

- ▶ Introduction and objective – *M. Rothman*
- ▶ What matters more in PCI? The type of drug-eluting stent you use or optimising acute procedural outcome? *J.M. De La Torre Hernandez*
- ▶ Shouldn't we use IVUS in the daily practice more frequently? – *M. Haude*
- ▶ The culprit of the culprit concept for optimising results in acute myocardial infarction patients – *D. Dudek*
- ▶ Fractional flow reserve guidance for elective patients: the data is there, the technology is there – no more excuses – *B. de Bruyne*
- ▶ Discussion
- ▶ Take-home message – *M. Rothman*

12:00-13:30

Symposium

Do we need drug-eluting devices in the infra-inguinal arteries?

With an unrestricted educational grant from ABBOTT VASCULAR

Chairperson: P. Gaines

Co-chairperson: M. Bosiers

Objectives:

▶ To illustrate differences between coronary and peripheral arterosclerotic disease and their impact on restenosis prevention

▶ To summarise the latest studies in drug-elution devices in peripheral arteries

- ▶ Introduction and objectives – *P. Gaines*
- ▶ Physiological and pathological differences between coronary and peripheral arteries – *M. Schillinger*
- ▶ Will everolimus work in the superficial femoral artery? *S. Mueller-Huelsbeck*
- ▶ Do we need drug-eluting stents in the BTK segment? *M. Bosiers*
- ▶ What is the best way to fight restenosis:
 - in support of drug-eluting balloons – *I. Baumgartner*
 - in support of drug-eluting stents – *C. Rabbia*
- ▶ Discussion
- ▶ Take-home message – *M. Bosiers*

Room 4

08:00-11:55

Patients with diabetic foot lesions: new concepts for complex disease

Chairperson: I. Baumgartner

Co-chairperson: L. Dalla Paola

Objectives:

▶ To emphasise the need for a team approach for patients with diabetic foot lesions

▶ To discuss the potential and limits of advanced interventional techniques for patients with tibial lesions

▶ To address surgical techniques for revascularisation and wound management

- ▶ Introduction and objectives – *L. Dalla Paola*
- ▶ Comprehensive diabetic foot care – *P. Leger*

08:20-09:15

Live case transmission from Leipzig

▶ Wound management, reconstructive surgery and amputation – *M. Gargiulo*

09:30-10:25

Live case transmission from Leipzig

▶ Advanced interventional techniques for complex tibial obstructions – *A. Schmidt*

10:40-11:35

Live case transmission from Leipzig

▶ Lesion specific stenting of infrapopliteal arteries: techniques and indications – *M. Bosiers*

▶ Take-home message – *I. Baumgartner*

13:30-16:00

ACC-i2 Summit @ EuroPCR – Unresolved/poorly addressed issues: ACC and EuroPCR/EAPCI initiatives Under the auspices of the American College of Cardiology (ACC), EuroPCR and the EAPCI

Chairperson: D. Holmes

Co-chairperson: S. Silber

Objectives:

▶ To present unresolved and poorly addressed issues in coronary stenting

▶ To present unresolved and poorly addressed issues in carotid stenting

▶ To present various issues related to training for interventions in structural heart

▶ Introduction and objectives – *S. Silber*

- ▶ Coronary
 - Unresolved and poorly addressed issues in coronary stenting – *C. Di Mario*
 - What are the latest initiatives towards resolving these outstanding issues – *D. Holmes*
- ▶ Peripheral
 - Unresolved and poorly addressed issues in carotid stenting – *M. Roffi*
 - What are the latest initiatives towards resolving these outstanding issues – *W. Gray*
- ▶ Structural
 - Unresolved issues on who and how to train for interventions in structural heart disease – *A. Vahanian*
 - What are the latest initiatives towards resolving these outstanding issues – *C. Ruiz*
- ▶ Roundtable discussion – *C. Di Mario, W. Gray, D. Holmes, T. Mabin, S. Silber, M. Roffi, C. Ruiz, A. Vahanian*
- ▶ Take-home message – *D. Holmes*

Express the truth to gain the trust
