Dear Professor Silber,

on behalf of the Organizing Committee of the Interventional Cardiology Workshop **New Frontiers In Interventional Cardiology (NFIC 2017)**, we would like express our gratitude for having accepted our invitation to participate in the Workshop, held in Krakow on December 6th - 8th, 2017.

At the beginning of the NFIC workshop for the 10th consecutive time an interventional cardiology Fellows Course was held for young doctors specializing in interventional cardiology. The course was organized under the patronage of the Polish Association of Percutaneous Cardiovascular Interventions of the Polish Cardiac Society and European Association of Percutaneous Cardiovascular Interventions (EAPCI) ESC. Additionally, the 5th Left Main Summit and Advanced Operators' Workshop was held simultaneously and has received positive feedback from the audience.

In the following days with live case transmissions from catheterization laboratories of the Institute of Cardiology Jagiellonian University Medical College in Krakow (Poland), American Heart of Poland in Bielsko Biala (Poland), Thoraxcenter, Erasmus Medical Center in Rotterdam (The Netherlands) and Shaare Zedek Medical Center (Israel) we had an opportunity to follow and discuss interesting procedures and cases performed by invited operators from Europe and USA.

A very high level of the presentations, panel discussions, lectures and live transmissions from operating theaters was very much appreciated both by the international experts and participants themselves.

We wish You a Happy and Prosperous New Year 2018 and see You at NFIC 2018!

With kind regards,

Dariusz Dudek, MD, FESC
On behalf of the Board of Directors
